

# Healthy Hair Starts With A Healthy Scalp

## *Start With A Healthy Scalp*

Hair Support Program is designed to do just that – promote and maintain a healthy scalp. Hair support offers a shampoo, conditioner, overnight scalp treatment as well as an in-salon professional scalp treatment, vitamins and styling products.

## *Cleansing & Revitalizing Shampoo*

When massaged into the scalp, Hair Support shampoo helps promote circulation to the scalp increasing nutrient flow to the hair follicle, loosening build-up debris and creating a healthy scalp area for hair to grow.

## *Restructuring Conditioner*

A light and natural restructuring conditioner for the scalp and hair. Maintains moisture and helps keep hair more manageable. Will not weigh down or cause build-up on the hair or scalp.

## *Overnight Scalp Treatment*

A patented treatment that deep cleans hair follicles and the scalp, potentially leading to the growth of dormant hair. Designed to be used with Hair Support cleansing and revitalizing shampoo and restructuring conditioner. Use one to two times weekly for best results
