**DANCE**

**VISUAL  
ARTS**

**ART OF  
WORDS**

# EXPERIENCE A NEW THEME EACH WEEK!

## MUSIC

### 7/12-7/16 "COLLABORATE IN HARMONY"

Students will discover how to make sound come alive in the form of making music with vocal and instrumental techniques. Each student (dreamer) will create music inspired by diverse and inspirational recording artists. Tangible and digital resources (found objects and Chrome Music Lab) will allow each student the chance to create and manipulate inspirational sounds, beats, and rhythms that motivates them to collaborate and make harmonious music.

### 7/19-7/23 "LET LEADERSHIP MOVE YOU"

Students will come up with ideas as to what a leader is and how leaders can cultivate growth and change in their community through the art of movement. All students will use various dance genres to demonstrate the power of leadership by becoming a choreographer. Dance steps and movements will be dictated and lead by the students while using inspiration from virtual applications like tik tok and master artists from diverse cultural backgrounds in the field of dance.

## DANCE

## THEATRE

### 7/26-7/30 "LIGHTS, COMMUNITY, ACTION"

Students will discover how to elicit change within themselves in order to be curators of change within their community with an inspirational theatrical performance. Students will have the opportunity to use costumes, props, and scene decor to put together an LTYC original play. Improv and acting games will be used as a way to elevate student confidence while using creative solutions to cultivate a strong sense of community.

## VISUAL ARTS

### 8/2-8/6 "CREATING DIVERSITY"

Students will be inspired by diverse creative voices in visual art. All activities will allow students to celebrate a wide representation of cultures and creative genres in order to gain inspiration in art forms such as painting, drawing, sculpting, printmaking, and crafting. Students will be given the opportunity to create a series of personally meaningful artworks inspired by artists that embody and symbolize the importance of cultural representation. Each student will design a virtual and in person gallery of their work that will result in a final creative showcase!

## ART OF WORDS

### 8/9-8/13 "CREATIVE CONFIDENCE"

Students will learn how to create pieces of writing with a strong voice and sense of content. Connections will be made with how words can affect future ambitions with the positive influence of master spoken word artists, poets, and authors. Each student will write and perform work that will allow them to express themselves in a meaningful way by the use of journaling, sketching, and virtual media. All artists will also be able to create audio tracks of their work to share with their family, friends, and community.
