

# #BeAHawk

---

Happy 2019!! For the past few months on Twitter (follow us @hawkshockeyclub) we have encouraged you to **#BeAHawk**. We want to share our Hawks pride with everyone! With that in mind, we asked some of our members “What does it mean to **#BeAHawk**?”

- *Being a Hawk means that you are part of a family dedicated to the success of the organization. It means that you take great pride and passion in representing the logo on the front of your jersey. You have the understanding and expectation that you are there for each of your teammates and members of your organization as well as knowing that they are there for you too!* - **Hockey Director Steve Poapst**
- *If you are a Hawk you have another family separate from your normal family that you can turn to and rely on. You will always be a part of it and be able to come back regardless if you still play there or not.* - **U16 Drew S.**
- *It means you are a proud hockey player no matter the outcome of your game.* - **Peewee Maksym W.**
- *Being a Hawk means you're committed every time you step on the ice to playing with maximum effort for your teammates, coaches, family, and organization. It's playing with integrity, passion, reliability, and respect.* - **Coach Davidson**
- *Being a Hawks is being part of an awesome team where I have made great friends. We celebrate our wins and pick each other up when we lose.* - **Peewee Mason B.**
- *Being a Hawk means that I am part of one unit where everyone does their best to better the team. Everything that I do to improve will create a better tomorrow for the team.* - **U16 Tyler K.**
- *When you are a Hawk you are part of a team full of the guys that you care about most. You feel your best knowing you're surrounded by family and part of an organization where people and coaches really care about you.* - **U16 Luke M.**

The clear consensus is that the Hawks are a family. In the next few issues we will tell you what other Hawks think it means to **#BeAHawk**. When you post about hockey, tag us @hawkshockeyclub!
