

President's Message

June 2025

As we head into summer, I am proud of the momentum we continue to build together and excited about the progress ahead.

I would like to thank everyone who participated in our Spring Technical Meeting in Philadelphia. Your time, expertise, and engagement were instrumental in making the event a success. Whether you presented, organized, or simply attended and contributed to the dialogue, your involvement helped foster the continual improvement and educational environment that is the backbone of our organization.

Beyond the Technical Meetings, the Fluid Sealing Association continues to prioritize meaningful work within the Government and Regulatory Affairs Committee, with a particular focus on PFAS. As regulatory developments in this area accelerate, we are working diligently to provide sound, science-based input. Our goal is to ensure that new regulations are both informed and implementable—and that your professional perspectives are well-represented.

As we look to the months ahead, I encourage you to stay connected and involved. Your contributions are what make this association thrive. Mark your calendars – our Annual Meeting is scheduled for October 22-24, 2025. We are looking forward to another great gathering. More details will be shared in the weeks ahead.

Finally, a quick reminder that the Fluid Sealing Association does have a current Policy Manual on file that contains policies such as Conflict of Interest, Document Retention, Non-Discrimination, and Anti-Harassment. If you ever have questions or need further information, please feel free to reach out to Pete Lance for guidance.

Thank you again for your continued support and commitment. Wishing you a productive and fulfilling spring and summer.

Regards,

A handwritten signature in cursive script that reads "Amy J. Hammarstrom".
