Upstate Attractions

BY: MARK PRASUHN

New York State is second only to California in its number of museums (over 2,500). Some of these are world-renowned, such as the Metropolitan or Museum of Modern Art. And many are smaller hidden gems - for example in our backyard we have the [Antique Boat Museum](#) in Clayton and the [Remington Art Museum](#) in Ogdensburg.

A few years ago, WPBS started a collaboration with an Ottawa-based producer to profile some of the "driving distance" destinations in our area and the result is the series **Upstate Attractions**, airing on Thursdays at 7:00 pm. It's just one of many productions the station has made or commissioned over the years to celebrate things that make our region special and unique.
