

Multi-Language Broadcast AI-powered Chat & Audio interpretation available in 50+ Languages

1. Click on the link (Wordly) given in the Chat.

2. Select Your Language

3. Enter your name here.

4. Click attend

The screenshot shows the registration form for Wordly AI-powered interpretation. At the top is the Wordly logo and the text "AI-POWERED INTERPRETATION". Below this are several input fields: "Choose language*" with a dropdown menu showing "Spanish (ES) - Español (ES)", "Enter Session ID*" with the value "HADN-1296", "Enter Passcode*" with the value "U9FQgKuuN2kBzsn5VUUZ", "Enter Name*" with the value "JUNAID", and "Choose a display mode" with a dropdown menu showing "Normal". At the bottom, there is a "Fewer options" link with a question mark icon and a blue "Attend" button.

5. Simultaneous transcription in text will start in your language

6. Click on Unmute here to listen in selected language.

The screenshot shows the chat interface after registration. At the top, the Wordly logo and session ID "HADN-1296" are visible. Below this, there is a language selection dropdown showing "SPANISH (ES) - ESPAÑOL (ES)". A status bar indicates "The current speaker is speaking ENGLISH". The chat history shows three messages: a system message from "wordly" saying "sur N.A. entrando puede que me escuches claramente.", a message from "Miqueas", and a message from "Encuentra tan simple cariño. Miguel".
