

# CAPACITY BUILDING ON A GLOBAL SCALE: ABOUT THE PATIENT ADVOCACY LEADERSHIP COLLECTIVE

Co-created with a Global Patient Advisory Board, the Patient Advocacy Leadership Collective is an innovative hub that provides connectivity, community resources, and tools focused on sustainable capacity building for patient advocates globally.

The mission of the Patient Advocacy Leadership Collective is to support patient advocacy organizations around the world by empowering them with knowledge and skills through offering evidence-based tools and resources that elevate their work in support of patient communities. Launching globally in the fall, the platform will offer programs and resources focused on supporting the growth, development, and leadership of patient advocacy organizations to deliver upon their mission to support patients and their families.

[Sign up](#) for the Patient Advocacy Leadership Collective at [PatientAdvocacy.com](#) to learn more about program updates and availability. All full and part time employees of a patient advocacy organization above 18 years of age are eligible to join.

## The Patient Advocacy Leadership Collective Programs

<b>Supporting Organizational Growth</b>	<p>The <a href="#">NextGen Leadership Program</a> is a training program that provides tools and resources to support the growth and development of leaders in patient advocacy, so they can grow their services and capabilities to be the best for the communities they serve.</p>	<p><i>“Collectively, we are trying to define and practice the skills that help organisations like ours stay sustainable to continue to serve patients for the long run.”</i></p> <p>– <b>Valentina Strammello</b>, European Patients Forum</p>
<b>Connecting Advocacy Professionals</b>	<p>The <a href="#">Mentor Match Program</a> fosters connections and offers peer support between advocacy groups to learn and grow from one another. Advocacy organizations can define the areas upon which they seek to be matched to help develop the mentor-mentee relationship.</p>	<p><i>“Community-to-community exchanges are powerful. Building one community to work together and learn each other’s experiences, challenges, and opportunities is invaluable.”</i></p> <p>– <b>Regina Mariam Namrata Kamoga</b>, Community Health and Information Network</p>
<b>Sharing Resources and Knowledge</b>	<p>The <a href="#">Global Health Fellows (GHF) Program</a>* places Pfizer colleagues on skills-sharing assignments with patient advocacy organizations to help strengthen local health systems.</p>	<p><i>“The Fellows’ contributions have had an enduring impact on our team and provided us with valuable skills to meet the future needs of our organization.”</i></p> <p>– <b>CARE</b></p>

## The Patient Advocacy Leadership Collective Provides Educational Resources

### Supporting Health Literacy with Clear-AI Health Literacy Tool\*\*

Clear-AI Health Literacy Tool is an evidence-based, health literacy tool designed to optimize patient materials for lay audiences. By incorporating health literacy best practices, Clear-AI Health Literacy Tool improves written text by checking readability, understandability, and actionability.

Clear-AI is currently only available for US Patient Advocacy Organizations. [Sign up](#) with the Patient Advocacy Leadership Collective to get updates on when it will be available for your region.
