With #Illinois schools moving to remote learning during #COVID19, a special program called the Pandemic Emergency Benefit Transfer (P-EBT) is here to help families buy food for school-aged children or young people.

If you currently receive #SNAP benefits, you are automatically eligible for P-EBT benefits and do not need to apply. Your P-EBT benefits will be automatically loaded into your Illinois LINK EBT account along with your regular SNAP benefits.

If you do not currently receive #SNAP benefits and need to apply for the P-EBT program or to learn more, click here: <http://www.dhs.state.il.us/page.aspx?item=124142> #HelpIsHere
