healtheconnections®

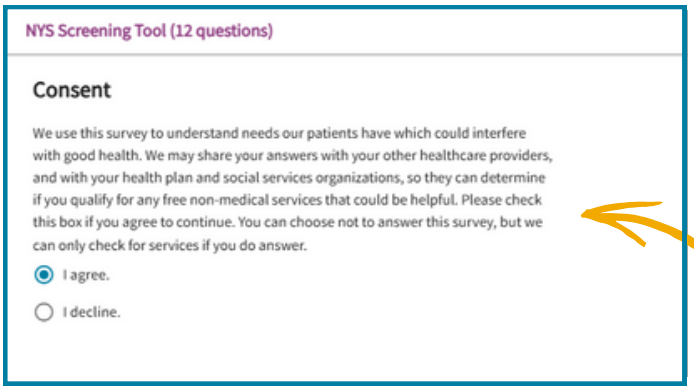

Submit screenings for reimbursement directly in your clinical workflow.

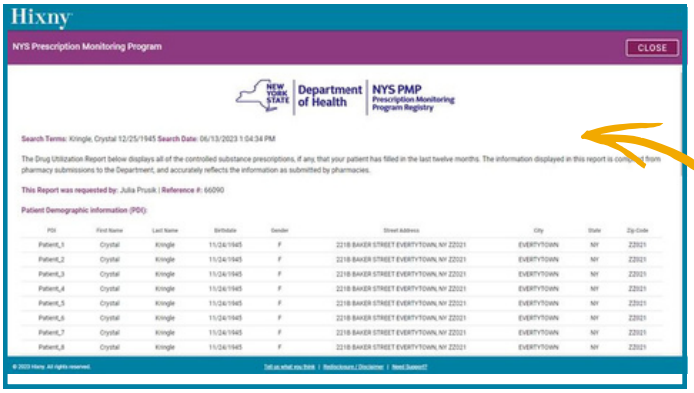

With the Hixny application, screen for social needs and check prescription history without leaving your EHR.

Scan the QR code to see if your EHR is supported.

Available at no cost
while funding lasts

Benefits to you

- Launches within your EHR
- Available regardless of patient consent to participate with QE
- Direct access to the *only* screening tool validated by NCQA that also meets the requirements of NY's 1115 waiver—**including transmittal to all NYS social care networks (SCNs) for reimbursement***
- One click keeps you logged into† the NYS prescription monitoring program query tool *(formerly I-STOP)*—no need to re-login for up to 8 hours

Contact healtheconnections to get started.

support@healtheconnections.org

**Facility must have agreement in place with SCN to gain reimbursement.*

†The system uses the NYS Health Commerce System (HCS) ID to validate the credentials of the person conducting a search. Practitioners, pharmacists, and designees must maintain their own active HCS ID to be considered authorized to search the NYS PMP through this interface.
