

Protect Our Vote Project -- *continued*

1. An inventory and assessment of Illinois voting equipment to assess functionality;
2. collection of information from election authorities on procedures including accessibility of polling places, recruitment and training of poll workers, and methods of communicating voting information prior to elections;
3. permitting the use of Vote Centers, central voting locations that may be used by any voters residing within an election jurisdiction, throughout early voting and on election day.

Legislation has been or will be introduced to bring about the implementation of these recommendations. These topics have been included in the 2018 Legislative Interview Questions and Time for Action alerts will be issued as appropriate to garner support. Please help promote this project to your members and encourage them to contact their legislators in support of the bills.

Fact sheets are in the process of being created. Click [HERE](#) for the first one on Voting Centers.

LWVIL Voters Service Co-Chair Jan Dorner has been in contact with Leagues about specific issues in targeted parts of the state. LWVIL is grateful for support of this project from The Joyce Foundation.
