

**How long I've been a League member and League involvement:**

I've been a member of LWV, the Chicago League for just over a year. I've gotten involved in a variety of aspects - attending State and Local events. I was the North Side Unit Co-Lead for FY2018, involved in other aspects of membership committee; For Communications I have been the project manager for the website and social media tasks, including our upcoming website upgrade. I've found the two rallies I've attended in Springfield as part of LWV coalitions to be some of the more rewarding experiences since joining League.

**Professional info:**

When not involved in League activities, I work part-time as a financial systems consultant.

**Why I'm excited to join the state League:**

The first League event I attended was the State Issues Briefing; I was so impressed I joined. I enjoy interacting with members from other Leagues – it's so interesting to hear the events and creative solutions they've developed. The State Board will help me hear more about the great works of our local chapters. In my State role, I'd like to help share the ideas and 'best practice' solutions for all to benefit.
