

## **Online Voter Guide -- continued**

After reviewing the candidates' bios, stances, and endorsements, users will be able to save the candidate of their choice and take it to the voting booth with them. (Note - we are still early in the process, so more information concerning the candidates will be added as the election season proceeds. Voter choices can be printed out. This voter guide also is mobile-friendly, so choices can be pulled up on a phone's browser, if allowed.\*

Besides the online voter guide, a "Make a Plan to Vote" piece is available. Voters will be matched to their polling place and choose whether to vote early, on Election Day or by mail. A text messages and email reminders can be programmed as well as a calendar reminder. Some polling places are still in question, some currently, the only choice is voting on election day.

If you have any questions about this online voting guide, let us know and we can help! [voterservice@lwvil.org](mailto:voterservice@lwvil.org).

*\*Currently, some voting authorities do not allow cell phones in the voting area.*
