

FutureSmart

STUDENT EVENTS | 2018-19

The MassMutual Foundation and EVERFI want to celebrate Cleveland, OH area students participating in the FutureSmart Digital financial education program by hosting an interactive Field Day in your school's gymnasium.

This event is a unique opportunity to kick-off the program with your students in an exciting, actionable way. The gathering will bring FutureSmart to life in your school's gymnasium. Students will have the opportunity to enact course scenarios, cycling through a series of 5 life-sized, group activities that preview the knowledge that students will gain through the digital course. Community leaders and MassMutual advisors will also be present, encouraging and coaching students through the activities.

To further demonstrate our commitment to the Cleveland area, each participating student will be entered into a raffle to receive a \$1000 529 Scholarship from EVERFI and MassMutual Foundation at the event.
