Cardinal SHIELD™ glass barrier

Bringing protection to retail, "check in" stations and office spaces

- The most comprehensive catalog of solutions for all types of needs.

- Made to order standard solutions that can be customized with sizes, cut-outs and configurations.

- Easy to clean and disinfect as all glass is protected with Cardinal 10.

- Easy to install

- Include branding, text or any graphic design using Satori™, our digital in-glass printing solution.

CARDINAL

Shower Enclosures • Commercial Glazing Systems • Artisan Glass
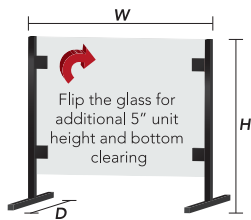

Why a glass barrier?

- A **glass barrier** is a way to protect both employees and customers from the exposure to respiratory droplets.

- Glass is a superior surface barrier because it's easy to clean, resists scratches and holds the color of its natural state while acrylic or polycarbonate can easily scratch and lose its natural color with various cleaning agents.

Cardinal SHIELD™ glass barriers

- Cardinal is the largest fabricator of custom glass shower enclosures in the country. By leveraging our economies of scale, manufacturing, distribution and logistic capabilities we are now providing **Cardinal SHIELD™ glass barriers**.

- Cardinal 10™, featuring proprietary nanotechnology, is the premium surface protectant that keeps glass products clean and beautiful for years.
