

CALLING CHILD CARE & EARLY LEARNING PROVIDERS

We Want To Hear From You!

Child Care Aware of Washington has a new state-wide team dedicated to designing a system that makes it easier for families to find and enroll in early learning opportunities in their community. As providers who serve the families we intend to create this system for, we want to hear your perspective about what makes a strong enrollment system and how you'd like to be represented.

Your Voice Matters

Connect with our Family Access Program Manager, Tia Collins, for a short, 15-30 minute session that can be held virtually or in-person. Information shared in sessions will be completely confidential, and **participants will be awarded a \$50 gift card for their time.**

About Us

Child Care Aware of Washington's Family Access Program aims to partner with families and providers across the state to design and implement an early learning navigation system. We hope to make finding and enrolling in early learning more accessible for families of all backgrounds.

Schedule a Session

If you are interested in taking part in a listening session, please contact:
