**SUBJECT:** DISTRICT FEES AND CHARGES OTHER THAN WATER RATES

**RECOMMENDATION:** Review the proposed revisions to the District's fees and charges and recommend that the Board of Directors conduct a public hearing for the purpose of receiving comments on revisions to the District's Rules and Regulations relative to fees and charges other than water rates.

**PRIOR BOARD ACTION:**

10/7/15 Conducted a public hearing. There were no public comments, written or oral, presented. Adopted Resolution No. 15-35 revising Rules and Regulations of the District relative to fees and charges other than water rates.

**FISCAL IMPACT:** The revenue produced by these fees and charges is designed to recover the costs associated with the services provided by the District. Adoption of the new miscellaneous fees and charges will increase revenue to the District if the number and type of transactions remain similar to those in the past. In FY 2016, the District collected approximately \$1.9 million in revenues from miscellaneous fees and charges. Staff estimates an increase in annual fee revenues of approximately \$50,000.

**SUMMARY:** Every year, the District performs a nexus study to ensure that its fees and charges accurately reflect the actual costs of providing services and only those costs. As a result, the District's fees and charges need revision to properly account for changes in the cost of labor, materials, and outside services for the coming year. The fee summary schedule attached is a comprehensive list of fees and charges other than water rates. The proposed modifications to the fee summary result from changes in material costs, updated process analyses, changes in labor costs and costs of outside services.

The District's fees and charges are being presented to the Fiscal Policy Committee for review and comment prior to consideration by the full Board. After the Committee's review and recommendation, the Board will conduct a public hearing to receive comments prior to considering adoption of the revised fees and charges. The fees would become effective January 1, 2017.

**DETAILED REPORT:** Staff has performed detailed costs studies on all fees and charges. The proposed changes are necessary due to inflationary factors and the updated results of the very detailed analysis of the cost make-up of each fee. The proposed fees are calculated using current costs for labor, materials and outside services. A majority of the changes in this fee study are related to either an increase or a decrease in the cost of parts. Staff will present the changes of individual fees at the Committee meeting. The proposed fees reflect the estimated cost of providing services in calendar year 2017.
