Name:	Robert P. Dottin	
First year of membership:	1987	
All Souls activities:	 Adult Ed: Produced nine lectures with slides on Ableism, Voter suppression, Anti -racism, Indigenous rights, Genethics and Epigenetics. Worked with Elizabeth Hutchinson and Rev Audette Fulbright. Ministerial Search: Spent 2 yrs on AS search for Assoc. Minister. Introduced Zoom Video Conferencing (VC) to assist the AS search committee. UUA Linkage and Advocacy: 1. Encouraged strong interaction with UUA and greater participation in GA. 2. Promoted mounting permanent banner(s) on our Church, facing the public reminding them of who we are and what we stand for. 3. Recommended that the AS Board explore Environmental and Social Governance investment. I I failed, despite the linkage of fossil-fuel investing with human-induced climate change. 4. After visiting The National Memorial for Peace and Justice and The Legacy Museum in Montgomery AL, I developed a presentation with two UUs, Linda Rousseau and Adine Usher and with Tosia McCormick, a daughter of holocaust survivors, We presented Monuments And Memorials live, at libraries and two churches, and on Zoom to UUs, members of NY Ethical Culture Society, and The Shames Jewish Community Center, thereby reinforcing UU trailing. 	
	values.Recently I became an AS DeaconParenting: Made sure that my kids, Melissa and Garreth, attended UU RE at CUUC and AS.	
Professional experience:	Institutions: The Johns Hopkins University Assoc Prof; Hunter College of City University of NY Prof and Director of the NIH-funded Gene Center. Visiting Professorships (6 to 12 months): Univ of Copenhagen; Pasteur Institute, Paris (NATO-sponsored); Oxford University; Charles Univ, Prague; Univ of Trinidad and Tobago (UTT). Technologies Related to Genetics Research: I learned VC technology at UTT before Zoom. I initiated, with Carlos Lijeron, a multipoint VC platform to provide Advanced Genetics workshops from Addis Ababa. It simultaneously instructed scientists at nodes in 10 African nations, for the US NIH and the British Wellcome Trust, to promote genetics research in Africa via the H3 Africa (Health, Humanity, Heredity) Africa consortium.	
Other relevant experience:	 While at MIT, I worked as an aide (under police escort) to Justice Arthur Garrity on the desegregation of "schools" in Boston, a major failure. Garrity was hung in effigy many times. During my year at Oxford Univ, I participated in an EUU retreat in Spa Belgium with my son Garreth and my niece, Crystal - fostering collaborations among UUs. Even at our annual GA, I still interact with EUUs: While visiting EUUs in Paris, I recently watched, on Zoom, Rev Audette Fulbright's service at AS, with dancing flag-wavers. 	

	 I was a member of UU congregations in Dulaney Valley MD, CUUC Westchester, and of EUU Fellowships in Paris and Prague. I am a Member of <i>The History Makers</i>, an organization for distinguished African Americans including a few scientists.
Educational background:	Early education: St Mary's College, Advanced Level High School in Trinidad and Tobago. BSc-Honors, MSc and PhD in Medical Genetics, University of Toronto. Canadian Centennial Post-doctoral Research Fellow, MIT.

Robert Dottin Statement:

I came to New York in 1987 and joined All Souls soon after I arrived. I had been a Unitarian in Baltimore while I was an Associate Professor at The Johns Hopkins University. I moved to Hunter College, CUNY, to lead a plan to develop a multi-racial Gene Center in New York -- a major goal of the National Institutes of Health for addressing health disparities. For a while I also attended Community Unitarian Church in Westchester with my kids. Later my son, Garreth continued at All Souls until his coming of age.

At All Souls, I particularly enjoyed working on antiracist issues. Later I was invited to join the search committee to recruit an Associate Minister. That complex project involved gathering feedback from the congregation and the UUA, collaborating with members of the search community, and traveling to congregations to hear finalists preach. After two years instead of one, the congregation hired Rev Audette Fulbright. My technical experience in recruiting faculty scientists was helpful. The experience emphasized how talented and caring are the members of this All Souls community.

An activist even at MIT, I worked voluntarily with Judge Garrity to desegregate schools in Boston – a major failure. A strong advocate for engagement with the Unitarian Denomination, I attend *General Assembly* almost every year. During my six to twelve month stays in genetics labs in Oxford, Prague and Paris, I remained connected to All Souls during brief visits to New York. I participated with Unitarians, Catherine Robinson and other environmental activists in successfully preventing (thanks to *The House of Lords*) Oxford University from building housing on the Trap grounds, a swamp. In Prague I sided with the UU congregation in their efforts to prevent a state takeover of their church, and was awarded honorary membership. My participation in Adult RE at All Souls with Elizabeth Hutchinson led to serendipitous petitions on behalf of victims of the Kamloops Native boarding schools in Vancouver. I am a member of *The History Makers*, of distinguished African Americans, including a few scientists.

All Souls brings together bright people who can improve our world.

Judith Moldover Statement:

I am honored to have been asked to run again for the All Souls board of directors. A child of devout atheists who despised organized religion, I never knew how much I was missing by not being part of a church community. I joined All Souls in 2009, at one of the emotional low points of my life. Surrounded by open hearts and minds, I soon recovered and made close friends and good acquaintances. Participation in

congregational life beyond services and coffee hour and coffee hour was key. There were many opportunities: ushering, singing with the Community Choir, helping count the collection, and making soup for Monday Night Hospitality. I served on the board of Heart and Soul and was elected Vice President of the Deacons. As a retired nonprofit attorney specializing in governance and employment law, I happily share my time, expertise, and even, optimism for board service.

The advent of a new Senior Minister presents an enormous opportunity for our church to take stock and recalibrate. I envision our congregation, with so many members having talent in so many fields, leading the denomination in innovative ways to help people learn the joy of being part of a liberal religious community, united for worship and for the service of all. We must remember that we are a congregation offering even more than beautiful music in a stunning setting. We need new thinking to encourage maximum participation by all members of the congregation to advance democratic principles within our walls and outside in the broader community. That includes finding ways for people at different life stages with different time constraints to contribute to congregational life – and I'm not talking about money.

What an exciting time to be part of All Souls! I hope to work together with our ministers and staff to lead the congregation with creativity, courage, and commitment.

Linda Moskin Statement:

I can't remember a time when All Souls wasn't part of my life. I was dedicated here and grew up here. I graduated from the Sunday school program, where I learned our UU values and received a strong education in comparative religions, giving me a background to explore my own religious views.

All Souls has also been a place of community. From RE to the Young Adults and the Thirties-Forties Fellowship, there have been peer groups to grow up with. But there have also been multi-generational

relationships, with the parents and Sunday school teachers turning into friends and mentors. All Souls has been a support during difficult times and personal losses. It was also central for my family. My grandmother was a member of the Women's Alliance, my mother served on numerous committees over the years and on the Board, and come the Church Fair, my father was there setting up the tables. Today, my brother participates in a number of groups.

At the center of this community and faith is service - service to each other, to our church and to our community. And service has been central to my life; in my work as a public health physician, in the volunteer work I do, both within and outside of All Souls. As a church community, we are facing a time of transition as we prepare to search for a new minister, and at the same time, we are rebuilding and re-envisioning our community as we recover from the pandemic. At this key juncture, it is important that we have open two-way communications between the Board and the congregation. If chosen, I would be honored to serve on the Board of this congregation.

First year of membership: All Souls activities: Because I was running a difficult and time-consuming mental health program at Queens Hospital then, I was relatively less active at All Souls. However, I did help to revitalize the Layman's League with John Conti and now Tom Blum. Barbara Reed, my second wife, and I have also attended many events and contributed as we could to the annual budget. Now that I am retired, I have more time and energy to assume board work at All Souls. Professional experience: I started my professional life in NYC as a trombone player – Broadway shows, Radio City, and all manner of organizations. I taught Sunday classes to junior and senior high students using the UUA's "Man, the Meaning Maker." (Remember, this was the 1960s.) Because musical work became increasingly difficult to find, I eventually became an English teacher, starting in New Milford, NJ. And then I did local journalism for several years. Tribune, our opening day brought in 30 plus people and we were off and		
running. Most were Americans but a few French, Brits, and German members		
showed up, some from the first incarnation. Bill Baraclaugh, Charge de Affairs		
at the US Embassy, became our first President. It is still meeting, though in a		
different location.		

	From Paris, Barbara was hired by Dartmouth College as their Art Librarian and
	I, as the trailing spouse, became a community Social Worker (LMSW)
	specializing in mental health issues. While at Hanover, NH, we joined the local
	UU Congregation of the Upper Valley which was going through a grave period
	base on some left-over bad will. However, there were enough people available
	and eager to re-generat the organization. It too has been going well since,
	building their own church in Norwich, Vermont recently. I was the President
	for two years before we moved to New York just after 9/11.

Dan Schlieben Statement:

Back in the early to mid 1960s while attending the Eastman School of Music, an interesting man came regularly to the student lounge and talked with any of us there about whatever the times brought. He was William Hamilton, a theologian from the Colgate Rochester Divinity School. I had never met such a person in my Presbyterian up-bringing and his sense of humanity and personal warmth was evident. Along with an English Great Books professor, they formed an important duo in my early education and of course to my great surprise in 1966 I found Dr. Hamilton a prominent subject in a *Time Magazine* article with the

cover asking: *Is God Dead?* At that point, my interest in religion and religious organizations took on a new dimension and has since then. (For about two years, I toyed with going to the Union Theological Seminary, NYC, but in the end I used my English studies to become a teacher and then a reporter in New Jersey for both the *Record Newspaper/Associated Press*.

Over the years since, I have tried to emulate Dr. Hamilton's interest in others both personally and in organizations. For the last 25 years, I have worked in community mental health and hospital-based programs as a licensed mental health professional, first in New Hampshire and then starting some 20 years ago here in New York at FEGS, a Jewish-based organization, and then at Queens Hospital, where I led a day program for individuals needing mental health services. All in all, I see myself as a compassionate person who now has the opportunity to serve the larger community — I do tours of Carnegie Hall regularly, am on the board of my coop building here in NYC, and act as a monitor for students at the Art Students League, across the street from Carnegie. (Please see my resume for additional information about my professional life.)

My first Unitarian experience was in Rochester and then when I moved to NYC at the Paramus Unitarian Church (NJ) where my first wife was the organist and I taught Sunday school. When I moved to Boston to be the Public Relations Director for the Unitarian Universalist Association, then at 25 Beacon Street, I attended the Arlington Street Church where I met and married Barbara Reed. Barbara and I helped to revive a fellowship in Paris, France where we lived for a year. When we moved for work to Hanover, New Hampshire, we also helped to strengthen a floundering fellowship in the Upper Valley, where I was president for two years. On coming to NYC some 20 years ago for Barbara's job at the Metropolitan Museum, we sought out All Souls where I have been active in the re-development of The League.

So, this is why I am excited about the opportunity to be a continuing part of All Souls as a board member, bringing fifty years of strong professional experience and a sense of empathy and care to the issues that will come before the Board. Thanks for your attention.
