Water Quality TEACHER WORKSHOP

For Grade 7-12 Science Teachers

Use technology to engage students in hands-on water science

This workshop will:

- Introduce you to water quality lessons that help you meet NGSS!
- Explore a new technology tool SKIES, an iPad and web-based platform that encourages classroom interaction, increases student engagement, and promotes 21st century learning.
- Feature hands-on activities that use SKIES to engage your students in water quality topics, experiments, and tests!

Other workshop highlights:

- Learn about water issues facing Southern California
- Giveaways for your classroom
- Connect with other educators
- Continental breakfast and lunch will be provided

Brought to you by:
