## Issues Impacting Small Business in Deming, Luna County

1. Workforce
  - Lack of participation throughout NM, but specifically in Luna County.
  - Policy needs to shape an incentivized workforce system.
  - Under federal law, SNAP benefits require individuals to maintain 20 hrs. a week of employment. Small businesses have been told that NM is exempt from this requirement, leading to disincentivized workforce.
2. Reimbursements for occupational therapists and physical therapists not currently included in overall reimbursements for hospitals/nurses/physicians, etc.
3. CID continues to be a problem for small business in rural NM. We need to look at amendments that allow for regional options that support rural small businesses.
4. Border security as it relates to commerce transactions in the agricultural and other industries.

In general discussion after the meeting, there were concerns brought up regarding the Taylor Grazing Act. The BLM is actively revoking leases from ranchers and giving them to renewables. This is a huge hit to the ag community in Hidalgo and Luna County.
