

# Fund FOR THE Foals

Horse **PLAY**, underwritten by a generous grant from The Kloiber Foundation, made it possible for every Fayette County public and private school to create its own horse or foal.

After a wildly popular ride around town, a Horse Play auction at Keeneland was originally planned to generate proceeds benefiting arts education initiatives. However, as the foals went on display, it became clear that every student and teacher involved in creating the Horse Play horses and foals would be disappointed if they weren't returned to the schools where they were created.

**Fund for the Foals** campaign has been created to ensure that each beloved equine will find their way home to their school that arts education programming, performances and more could still be funded.

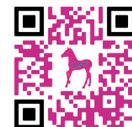

## Fund FOR THE Foals

Please help the foals and horses find their way back home!
