GRESHAM Climate Action

Rooted in Resilience WORKSHOP

Sunday, June 8, 2025

1 - 4 p.m.

Main City Park, 219 S Main Ave.

Join us to learn and share climate resilience skills!

In collaboration with Upstream Access, a cross-disability community committed to supporting the resilience of fellow disabled people, join us for a fun day at Main City Park.

We'll create a space for participants to share practical skills and resources, and provide tools and strategies that reflect the real-life needs and barriers faced by disabled people in emergencies.

Come to strengthen social connections and networks to improve emergency preparedness!

Lunch is provided. Please scan the QR code to learn more. See you there!
