UPCOMING CLASSES & EVENTS

Most classes are held at the John N. Harms Center.
Visit wncc.edu/bce for more information or to sign up for our monthly newsletter.

All About Underground Sprinklers

May 21 & 23 (M, W)
6:00 – 9:00 p.m., \$20
Applied Technology Building

In this class we will dive into home based lawn and garden care sprinkler systems. We'll look at the different types and what type may work best for your application. We'll look at some of the different tools used in building and maintaining systems as well as how to replace broken heads, how to adjust patterns, and why a drip based system may be great for your gardens. Then, we will be off to the lab for some hands on practice of our new found knowledge!

Be Your Own Handy Ma'am

May 30 – Jun 13 (M, W)
6:00 – 8:30 p.m., \$35
Applied Technology Building

Ladies, if you don't want to hire a handyman to repair that hole in the wall, squeaky hinge, or the light switch that just doesn't work anymore, why not do it yourself? Learn the importance of and how to change a furnace filter, swap light switches, repair a hole in the drywall, and find the best tools for the job. We demystify toilet leaks and discuss whether fixing a faucet or replacing it is right for you. Get to know your house and how to take care of it by joining your friends and signing up for this fun, new class. Prepare to get dirt on your hands and gain knowledge that you can use!

Introduction to Fly Fishing

Tax Season is Over, But What About Next Year?: 2018 Tax Strategies

May 23 (W)
11:30 a.m. – 1:00 p.m., \$10
Register by May 18

Proper Use of Tools

Jun 20 (W), 6:00 – 9:00 p.m., \$10
Applied Technology Building

Welcome to our class on proper use of tools. Have you ever wondered if a pair of pliers, flat blade and Phillips screw drivers, plus a hammer is all that you would ever need in life for tools? In this class we will discover the wonderful world of tools! During class, you'll learn to choose the right tools for the job. We will take a look at the safe use of tools and some of the dangers and pitfalls of improper use of tools. You'll also learn about the dangers that can be involved in using the wrong tool for the job.

Beginning Tiling

Jun 25 & 27 (M, W)
6:00 – 9:00 p.m., \$20
Applied Technology Building

YOU can learn to tile! We will dive into the wonderful world of tiling. Do you have a job you want to take on in your home, or even a remodel? We'll take time to learn how to repair broken tile, and whether it should be replaced or repaired. We'll also learn the importance of properly prepping the job. After all, it has been stated that 80 percent of a job is prep, and 20 percent is tiling. Find out what products work best for different jobs. Then, we will move to the lab and put to test what we have learned!
