

Being a local company means being there for our community when times get tough. Now more than ever, residents and businesses need a fast, consistent, and reliable internet connection.

We designed our fiber network to provide the highest quality experience for learning and working from home. With ALLO internet, you can stay connected to your team, your classroom, and the world as we navigate these difficult times together.

Stay connected by signing up for our 50 Mbps internet option for \$45 a month. Or look to upgrade to our 500 Mbps or 1 GIG internet service.

In an effort to provide assistance to those who find themselves at home without internet service, we are providing 50 Mbps internet free for 60 days. Contact us to see if you qualify for 60-days free service.

As always, our wireless GigaCenter router is included, our installation is free, and there's no contract involved.
