## Coach Mentor Feedback

"I remember being those kids when I was younger. Beyond Soccer gave me the opportunity to make friends for life. It's my second home. I thank them for all their support and mentorship. I started volunteering (picking up cones & setting up nets) because I wanted to be more involved. Today, I've been a Coach Mentor for 5 ½ years, and thanks to grant support like this, I have more resources and confidence to take my life to the next level, and that includes attending college. I cannot thank them (and you) enough for their devotion to transforming my leadership experience into success and confidence in life."
