

## **The Moore You Know Column: Putting America first, again.**

November 1 - November 21, 2024

America has spoken, and President Trump is heading back to the White House to finish what he started. Biden's time is up, and not a moment too soon. On day one, President Biden reversed Trump's America First agenda. Look at the result—A border crisis spiraling out of control, skyrocketing inflation, and a government that turned on its own people. That era is over.

For too long, Democrats have put illegal aliens ahead of hardworking Americans. House Republicans passed H.R. 2—the strongest border security package in American history. But where is it now? Collecting dust on Schumer's desk because Senate Democrats refuse to act. They've made their priorities clear: protecting illegal aliens instead of protecting American families. Thankfully, we are done waiting. With Trump back in charge, we're going to finish the wall, reinstate America First policies, and launch the largest deportation operation in history. The days of open borders and catch-and-release are over.

Just 72 hours after becoming President-Elect, Trump helped dismantle illegal migrant camps in New York City, and drove global conversations for peace, with world leaders already seeking his leadership. The stock markets are surging, production is moving back home—Trump's momentum is proof of what's to come.

The Democrats' failures didn't stop at the border. Their reckless tax-and-spend agenda crushed families, making it harder for Americans to make ends meet—sending grocery bills soaring and paychecks shrinking.

President Trump's historic tax cuts showed the world that lower taxes create jobs, strengthen the economy, and put more money in your pocket. That's why I introduced the Household Income Tax Suspension Act to give working families a break and am fighting to abolish the IRS once and for all. Your paycheck belongs to you. With Trump leading the charge, we'll cut waste, and put your hard-earned money back where it belongs—in your wallet.

The Biden-Harris Administration turned federal agencies into political weapons and woke DEI indoctrination machines. That ends now. I've fought in Congress to expose these abuses by proudly supporting the *Let Trump Speak Act* to defend free speech and introducing legislation to abolish the Department of Education and return full control of a child's education to the states and their parents.

President Trump's agenda is bold, clear, and exactly what our country needs. America is on the path to greatness again. Together, we'll drain the swamp, secure the border, cut your taxes, enforce our laws, defend your freedoms, fire unelected bureaucrats, and restore a government that works for the people. I'm proud to work with President Trump to put America First—again.
