LVE: 30+ Years of Excellence, Innovation, and Unmatched Client Relationships

For over three decades, LVE has been a leader in tradeshow production and design, shaping the industry with a commitment to trust, innovation, and excellence. Our core principle—"doing what we say we're going to do"—has driven our success and built lasting relationships with our clients, earning us a reputation for reliability and integrity in a fast-paced industry.

Founded as an EAC labor provider, LVE has grown into a full-service General Service Contractor (GSC) with a presence in over 35 states. This growth has expanded our capabilities, allowing us to offer a comprehensive range of services. Today, we're proud to have one of the largest Matrix Frame and MIS inventories in the industry. If you were to take all of our matrix frames and stand them upright, we would have almost two miles' worth of framing. This amount of inventory positions us to handle multiple large-scale, complex projects with precision and care.

At LVE, we view our clients as partners and friends. This has allowed us to maintain countless long-term partnerships, some over 20 years long. By making our focus not only on meeting expectations but exceeding them, we have found the opportunity to push the limits of what's possible with each event. Another key we have found to fostering long-term partnerships is through delivering cost-effective, environmentally friendly solutions that help clients stay within budget while elevating their event or brand experience. Our ability to provide personalized service, combined with similar resources of the largest GSCs, sets us apart. We scale our operations to meet the demands of large events but always prioritize the unique needs of each client, ensuring a tailored experience from start to finish. We have found that our flexibility is critical because no two clients are the same, and no two events or tradeshows are the same.

As we continue to grow across the U.S., our goal is to bring our exceptional service to new markets while maintaining the values that have been integral to our success. We are committed to offering fair, competitive pricing and supporting our clients' continued success year after year. Our vision extends beyond revenue growth—we aim to set new standards of service and excellence in the industry, leading by example with a focus on transparency, dedication, and outstanding results. By expanding our reach, we can continue to raise the bar for client service and industry standards. Ultimately, our journey is about more than just growth; it's about creating lasting partnerships and fostering trust in every market we serve. Together, we'll continue to shape the future of our industry, driven by a shared commitment to excellence and mutual success.
