

# SECURITY OPERATIONS DIRECTOR / SENIOR MGR IN HERNDON, VA

## **Director of Security Operations**

### **Overview:**

The Director, Security Operations reports directly to the CISO and is responsible for Technical Security Operations to include: Security Operations Center (SOC), Focused Operations (forensics, malware analysis, intel threat, insider threat tools), and Security Architecture and Engineering.

Will have 3 teams under them; Operations Manager, SOC Manager and the Cyber Security Engineering Manager

### **Direct responsibilities include:**

- Making technical and policy decisions that affect corporate security posture, especially as it relates to DFARS (NIST SP 800-171 compliance).
- Understanding placement of network/security infrastructure and visibility requirements for hosts, infrastructure, and network devices.
- Working with the Defense Industrial Base (DIB)
- Being able to provide monthly or as needed reports to the CISO
- Working collaboratively with other teams in the CISO organization as well as within the CIO to impact change and define an acceptable security posture
- Managing cyber incidents as they occur

Candidates must be US citizens and able to obtain and/or maintain a Department of Defense Secret or Top Secret security clearance as a condition of employment
