
Jose Rodriguez, MHA, FACHE, FAHRA, CRA, CPHQ

Jose Rodriguez serves as Director of Imaging Services at Harris Health System's Ben Taub Hospital in Houston, where he leads strategic and operational performance across imaging services within a Level I Trauma Center and safety-net health system. With over 25 years in medical imaging, he is focused on advancing quality, access, and high-reliability operations in complex, high-acuity environments.

A former U.S. Army Radiology Specialist, Jose holds a Master of Healthcare Administration and maintains advanced credentials including FACHE, FAHRA, CRA, and CPHQ, along with ARRT certifications in Radiography, CT, and Quality Management. He also serves as an Adjunct Instructor at Southwest University at El Paso.

Jose is an AHRA Award for Excellence recipient, a Past President of the Texas Society of Radiologic Technologists, and currently serves as a Commissioner for the Radiology Administration Certification Commission (RACC).

Gerald (Jerry) R. Ledlow, PhD, MHA, LFACHE

Dr. Gerald Ledlow brings over 38 years of experience across military medicine, healthcare operations, academia, and system-level transformation. He began his career as a commissioned officer in the U.S. Army Medical Department and later served in executive leadership roles, including corporate vice president at Sisters of Mercy Health, where he led large-scale supply chain redesign initiatives.

Dr. Ledlow has held academic leadership roles as dean, associate dean, and department chair, and currently serves as a professor at the University of Texas at Tyler Health Science Center. A prolific scholar, he has co-authored ten books, including widely used healthcare leadership textbooks, along with numerous journal articles and book chapters.

He holds degrees from the Virginia Military Institute, Baylor University (Army-Baylor MHA), and the University of Oklahoma, and is a Life Fellow of the American College of Healthcare Executives.

Ifeoluwa R. Malmberg, MD, MPH

Dr. Ifeoluwa Malmberg is a public health physician dedicated to advancing lifestyle medicine, population health, and health equity. Her clinical work in internal medicine—particularly with patients managing chronic conditions such as hypertension, diabetes, and obesity—has shaped her commitment to prevention and whole-person care.

She serves as an Assistant Professor at Baylor College of Medicine, where she provides inpatient care and has led quality improvement initiatives that reduced 30-day hospital readmissions by 30%. A passionate mentor, she has guided over 30 residents and medical students.

Dr. Malmberg is also the founder of the We Aspire Youth Mentorship Initiative, impacting more than 1,000 students through health education and leadership development. Her research focuses on sustainable, community-driven chronic disease screening in rural communities.

Raman Singh, DHA(c), FACHE, NEA-BC, CENP, CSSGB, CPHQ

Raman Singh is a healthcare executive and national speaker with nearly two decades of leadership experience across hospital operations, ambulatory care, population health, and managed care. She currently serves as Chief Operations Officer at Frontera Healthcare, where she oversees multi-site operations within Federally Qualified Health Centers (FQHCs).

Raman is recognized for building high-trust, people-centered cultures while delivering measurable clinical and operational outcomes. She brings a cross-continuum perspective on healthcare delivery, with a focus on access, quality, and operational excellence.

A national thought leader, she has presented at venues including the American College of Healthcare Executives Congress and Becker's Healthcare, and contributes to conversations on workforce transformation, leadership pathways, and equitable care delivery.

Robert Gonzalez

Robert Gonzalez is a healthcare operations and revenue cycle leader with over 20 years of experience improving financial performance and operational efficiency across healthcare organizations. He is the founder of RevOps RCM, where he partners with providers to optimize revenue cycle performance and implement data-driven strategies for sustainable growth.

His work is particularly focused on supporting critical access hospitals and rural healthcare organizations, helping them navigate financial pressures while maintaining access to care. Through tailored, innovative solutions, Robert works to streamline processes, strengthen financial stability, and address the unique operational challenges faced by rural health systems.

Sahar Mazhar, PharmD, MPH

Sahar Mazhar is the Founder and CEO of S2S Care, a Texas-based healthcare organization focused on expanding patient access, strengthening care coordination, and improving community health outcomes through patient-centered, scalable care models.

She brings a multidisciplinary background across clinical care, public health, and healthcare operations. She began her career in community pharmacy, advancing to Clinical Pharmacist with expertise in medication management, patient counseling, and collaborative care.

Sahar Mazhar holds a Doctor of Pharmacy (PharmD) and earned a Master of Public Health (MPH) in Healthcare Management from UTHealth Houston. Her work focuses on developing practical solutions that improve access, elevate quality, and address healthcare disparities.

She has led multiple professional initiatives, including serving as President of the American Pharmacist Society, and founded the Texas Pharmacist Society and the North American Pharmacists of Pakistani Descent to foster collaboration and support professional development.

Nate Grise

Nate Grise is a healthcare business development leader and Chief of Staff at Healthconnect Texas, one of the largest health information exchanges in the United States. In this role, he supports strategic growth, partnerships, and operational alignment across a statewide network focused on improving care coordination and population health outcomes.

Nate began his work with Healthconnect Texas after relocating from Massachusetts to Texas in May 2020. With over a decade of experience in healthcare technology and operations, he has built his career at the intersection of digital health, interoperability, and business strategy, with a focus on executing scalable, data-driven solutions.

His work centers on expanding data-sharing capabilities, strengthening stakeholder relationships, and advancing initiatives that reduce costs and improve outcomes for diverse patient populations.

Nate is particularly passionate about the role of interoperability in bridging clinical data with social determinants of health and advancing rural healthcare access, enabling more holistic and equitable care delivery. He is known for his ability to connect strategy with execution and drive meaningful impact across complex healthcare ecosystems.
