

**ABOUT THE CONFERENCE:** This conference provides geriatric health professionals with clinical and practical topics relevant to health practice with older adults. These topics represent areas of need as identified by participants and faculty who provide health care to older adults. Some topics represent increasing clinical concerns in the geriatric population or areas that have important policy and cost implications for health care providers and ultimately affect how services are provided.

**WHO SHOULD ATTEND:** This conference is for health care providers from all disciplines including physicians, physician assistants, medical directors, social workers, nurses, nurse practitioners, occupational therapists, physical therapists, nursing home administrators, dental professionals, audiologists, chiropractors, podiatrists, recreational therapists, dietitians, health care students, faculty and any other professionals interested in the field of aging.

#### ACCREDITATION

## CONFERENCE OBJECTIVES:

At the end of the conference participants should be able to:

- Explain Comprehensive Geriatric Assessment and its importance in the care of the older adult with cancer
- Identify the barriers and challenges related to conducting community-based participatory research on geriatric mental health in a linguistically isolated, minority community
- List the goals of Telepsychiatry and potential implications on long term care
- Implement the updated 2018 AGS Beers Criteria and de-prescribing into practice
- Define the five principles of trauma informed health care settings
- Describe the factors that complicate emergency risk stratification of older adults with suspected traumatic brain injury

### Registration Fees

- Professionals \$30
- Students \$20
- Caregivers \$20
