WOMEN IN TRANSITION

A workshop for women 50+ who wish to navigate change successfully and create a meaningful life

- Engage and connect with other women 50+ in transition
- Learn what it means to be in transition
- Expand your possibilities and options
- Know what is important and energizing for you
- Create a “next steps” action plan.

If you are exploring new possibilities, rethinking your life **and/or** work, contemplating changes in your lifestyle or want to expand your networks, this informative workshop will provide you a guiding framework to understand the process of transition, with structured conversations for personal reflection and interactive learning.

What sets this workshop apart is the opportunity to become part of a vibrant community of women, and to make connections that can continue to enrich your life and support your journey over the next several years.
