

## VOLUNTEER OPPORTUNITIES WITH THE LEGACY FILM FESTIVAL ON AGING

Want to learn? Want to have fun? If you are an emerging or experienced arts advocate, or a nonprofit professional – or *none* of those -- you will be an integral part of a forward-thinking festival, while learning about programming, operations, development – and more – with a small, but passionate board, including TTN Bay Area's co-founder Arlene Reiff.

We are gearing up for the **7th Annual Legacy Film Festival on Aging September 15-17, 2017**, in San Francisco – and *possibly*, East Bay, as well (!).

The only three-day film fest on aging, once again we will present independent and innovative global cinema that advances our mission: to educate, entertain, inspire intergenerational and diverse audiences about the issues of aging.

We are seeking new board members who meet several of the following requirements:

Love of film; interest in researching and reviewing potential films; comfortable with issues of aging; available to meet once a month in San Francisco for board meetings, plus 3-4 hours' extra work during the month. Experience or interest in fundraising and/or publicity a plus; experience with social media (Constant Contact also helpful). Flexibility and sense of humor.

If not board member, would you like to help out 3 hours per week organizing 'stuff' (myriad fest details)?
