

## **A Great Day in the Kingdom – 4/5/24**

In this pastor's opinion, Easter is the most energetic and positive period of time in our liturgical calendar! All of the pain and suffering is promised to cease one day, for all of us, as we are changed into the imperishable, eternal and even perfect. At that very moment the Jesus spoken of in **John 20:19-23**, will appear to each and every one of us. Aren't we Blessed to know that Glory with Jesus Christ is in our future, as Disciples of Jesus Christ?!

The Gospel of Jesus Christ continues to transform the world God created, each and every day. The Kingdom continues to grow and if we'll listen, the providence of Almighty God shines forth. This week, I am going to ask you to Pray to escape theological amnesia. That is to say that we easily forget in the midst of injustices on Earth that Jesus has us now and forever. Nothing can separate us from it, **Romans 8:38-39**.

Let's keep our future at the forefront of our language, perspective, attitude and outlook. Christ is Risen!!! Easter is not the end!!! Easter is our beginning!!! Praise God!!!

Have a Blessed Week, Church!!!

Love You All!

Pastor Joel
