

## **A Great Day in the Kingdom – August 19, 2022**

We live in a God Created world that presents His mighty works in Creation, every day. Taking things for granted is a huge struggle for many of us, walking on the face of God's Earth. In Summer, we say that it is hot. In Winter, we say that it is cold. When it is snowing, sleeting or if we can remember rain, we comment on that, as well.

Frequently, humanity offers a description of their experience of Creation, rather than the Blessing of our Creator. God made the weather. God created the Earth. God created the Heavens and the Seas. The implied question here encompasses the expressions of humanity, sometimes forgetting God's Blessing of provision and Creation.

Animals, or most animals bring us joy. God created them for our pleasure. This week I ask that as you traverse this world God created, you give Him thanks for something specific, while remembering God created all of it.

**John 1:3, Through Him all things were made; without Him nothing was made that has been made.**

After practicing this exercise of a grateful and thankful heart for Creation, you'll notice that you take less for granted. God Blesses us in enumerable ways, shapes and forms. Simply looking and identifying His Creation reminds us of His Love for us.

***PRAYER: Heavenly Father, help me to see what I have taken for granted. Help me to be Thankful and Grateful for your Creation. Thank You for Loving me. In the name of the Risen Christ Jesus, I Pray. AMEN!***
