

## **A Great Day in the Kingdom – 5/31/24**

In 1971, The Five Man Electrical Band wrote a song called "Signs." Signs are important components in our lives. They tell us where to go, how to get there, and how fast to do it. Signs can be exclusive, as well. During the days of segregation, signs separated us from our fellow human-beings.

Later we saw signs that society was not following God's plan. Those signs came down. The signs removed the signs.

Over all, signs are helpful. Many of you have complimented the new rock signs recently installed on the Church grounds. You can thank Kris Grimland for designing those signs. They will survive the Apocalypse.

The food pantry is consistently organized and very well managed. The bags are consistent and efficient. That, of course, is a sign that Lana Calhoun is running that ministry.

Have you ever considered that your presence is a sign from God? Well, I can tell you being a sign for others is true evangelism, at its best.

**2 Corinthians 12:12, The signs of a true apostle were performed among you with utmost patience, with signs, and wonders and mighty works.**

If you are not currently involved in being a sign, it is time. The song rings true, in building God's Kingdom. "Sign! Sign! Everywhere a sign!" It is time for you to be the sign, guiding people to serve God.

By the way, Kris and Lana are married. They sit together every Sunday. Can't you read the signs?

Have a Blessed Week Church!!!

Love to You All!!!

Pastor Joel
