

A Great Day in the Kingdom – 8/30/24

Have you ever met anyone who did not believe in insurance? Yes, they let their car insurance, home insurance, even health insurance lapse. This often results in regret, following unfortunate life circumstances. Insurance is important to obtain, but it should be maintained as well.

Our faith in Jesus Christ is also an assurance of insurance. God is with us every second, in the good and the bad. Just like insurance, we must plan ahead for the life eternal with Christ. Planning ahead encompasses effort. Because we are Armenian, we choose God. God already chose us, yet He leaves us with the free will to plan ahead. We have the assurance of insurance.

Proverbs 21:5, Good planning and hard work lead to prosperity, but hasty shortcuts lead to poverty.

If my car, just like my life, is wrecked, with God my insurance will fix it. Faith requires effort. We choose therefore, we are Blessed! By the way, we have some great insurance agents in the church. I assure you, they'll get you covered.
