

January 2024 Volunteer Services Report

I'd like to report that 27 members have submitted a total of 13,187 Volunteer Service hours for 2023. I want to thank those members and urge every member to continue submitting their 2023 hours. Were at about 80% compared to 2022 but I think we will hopefully meet or exceed ??? for 2023!

You may submit hours to me today at t_cummings@comcast.net or at our next meeting on February 7th, as total numbers need to be reported to FREA.

FREA reported that in the years from 2013 to 2022, volunteers saved the State of Florida \$132,986,375.60 (\$20/hour average) by working 6,649,319 reported volunteer hours. This shows that volunteers are a very important part of helping make Florida better. This information is included in both the Fall/Winter FREA Bulletin and our December MDCREA Holiday News Edition.

Forms are available at the sign in table. There is also a link for submitting hours on the MDCREA Homepage and one can be found near the end of the December Newsletter along with other links listed under Information Services.
