

The Formative Years: Focus on Kindergarten

Please join us for a Kindergarten Open House on Thursday, April 26
at 8:30 a.m. in our Founders' Library

Overview of curriculum

Meet the teachers

See the classroom

The kindergarten environment is designed to foster learning and creativity through a variety of experiences and the recognition that "play" remains important. As the transition point into the primary grades, classrooms are language-rich and support students as they transform into readers and writers. At the same time, the children are immersed in activities that develop number sense and foundational math concepts. Small group instruction, where groups are fluid and ever changing, is one method used to facilitate the individual and collective growth and needs of the students.

CURRICULUM

Personal and Social Growth
