

2nd Grade Lesson Plans

January 15-19, 2018

Language Arts: This week we will have the same plan as last week. I want to continue our work with opinion writing. We will write about our favorite seasons and continue to work on providing reasons. In our reading groups a focus will be on common and proper nouns.

Math: This week we will begin our new module. The general focus is addition and subtraction within 200 and solving word problems. The module starts with one more and one less. We will also add and subtraction within ten.

Science: Science will be taught in the 3rd Quarter

Social Studies: This week we will be continuing our work with lapbooks about the oceans and continents. We will also be looking at maps and discussing the locations of the continents.

Spanish: Last week we focused on conversation with greetings and introductions, asking and answering questions such as What is your name? What is your father/mother/sister/brother's name, How many sisters/brothers do you have? This week we will do the same with questions such as Where do you live? Where do you go to school?

Music: We will continue our unit on boomwhackers.

Wellness: We will be outside sliding for PE. We are going to watch short movies on growth mindset and talk about the many ways to succeed.

Art: We continue to print a series of monoprints based on the four seasons. We are also working on auction items.

Special Note: This is our first (actual) week skiing. Please review the protocols for the day. We are looking for donations for our auction basket. The K-2 basket theme is Main Street. Restaurant gift certificates, movie passes, or small gifts are some ideas for the basket.
