Gearing up for Skiing and Snowboarding at Burke Mountain

- Best to wear water-resistant snow pants and jacket suitable for the weather and temperature
 - DO NOT wear denim jeans or Carharts; they are not waterproof.
- Active-wear long underwear (no cotton if possible)
- Best to wear insulating layers that are lightweight, comfortable, and quick drying (no cotton)
 - Polyester fleece or 'soft-shell' top for colder temperatures
 - A vest option for warmer days works well
- **ONE** pair of polyester or ski/snowboard designed socks (no cotton socks)
 - Recommended not to wear more than one pair of socks or extra thick socks, they will only restrict circulation and make your feet cold
- Waterproof gloves or mittens (mittens are best if it is extra cold)
- Goggles or sunglasses, a winter hat (if not wearing a helmet), neck gaiter or face mask, sunscreen
- HELMETS are not required by Burke Mountain but highly recommended. Helmets provide protection, safety and warmth; available for rental.
- Get a good night sleep and eat a healthy hearty breakfast
- Stay hydrated throughout your day; drink plenty of fluids
 - (ex. water, soup, or other hot beverages)
- Familiarize yourself with the Skier/Rider Responsibility Code
 - Always stay in control, and be able to stop or avoid other people or objects
 - People ahead of you have the right of way. It is your responsibility to avoid them.
 - You must not stop where you obstruct a trail or are not visible from above.
 - Whenever starting downhill or merging into a trail, look uphill and yield to others.
 - Always use devices to help prevent runaway equipment.
 - Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
 - Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

Have Fun, see you on the Hill!

2022 SCHOOL PROGRAM RENTAL AGREEMENT

Student name: _____ Season Rental yes _____ no _____

(please print neatly)

School: _____ School phone # _____

I. SKI RENTAL

- 1) STUDENT: WEIGHT _____ HEIGHT _____ AGE _____ SKIER TYPE _____ (Use I, II, or III; see form on following page)
- 2) I understand that the ski-boot binding system is not designed to release at all times, therefore no guarantee of user safety.
- 3) I have reviewed the entries in this form with respect to student weight, height, age, and ability and I agree that there have been no misrepresentations to the Rental Shop regarding this information.
- 4) **I have read and understood the Express Assumption of Risk and Ski School/Rental Agreement above.**

II. SNOWBOARD RENTAL

- 1) STUDENT: WEIGHT _____ HEIGHT _____ AGE _____ RIDING ABILITY _____
- 2) I understand that the snowboard, boot, binding system does not release and is no guarantee for safety of the user.
- 3) I have reviewed the entries in this form with respect to the student's weight, height, age, and ability and I agree that there have been no misrepresentations to the Rental Shop regarding this information.
- 4) **I have read and understood the Express Assumption of Risk and Ski School/Rental Agreement.**

III. HELMET RENTAL

- 1) RENTING A HELMET _____ NOT RENTING A HELMET _____

If a helmet is being furnished, I understand that no headgear can protect against all foreseeable impacts, that skiing and snowboarding can expose the user to forces which exceed the limits of protection offered by this helmet, that helmets do not guard against injury to the neck, spine, face, or any other part of the body, and that these features are an inherent risk of using this equipment. Helmets must be properly fitted to each user, and I agree that this helmet has been properly fitted by the provider. I warrant that the helmet is comfortably snug and that when I fasten the chin strap and shake my head there is no significant movement of the helmet.

Classify Yourself

DETERMINING YOUR SKIER TYPE IS YOUR RESPONSIBILITY

Your Skier Type, height, weight, age, and boot sole length are used by the shop technician to determine the release/retention settings for your bindings. Consult these descriptions to select your classification. Be sure to provide accurate information. Errors may increase your risk of injury.

 Type I <i>Cautious skiing on smooth slopes of gentle to moderate pitch</i> Skiers who designate themselves as Type I receive lower than average release/retention settings. This corresponds to an increased risk of inadvertent binding release in order to gain releasability in a fall. This type also applies to entry-level skiers uncertain of their classification.	Skiers not classified as Types I or III Type II Skiers who designate themselves as Type II receive average release/retention settings appropriate for most recreational skiing.	 Type III <i>Fast skiing on slopes of moderate to steep pitch</i> Skiers who designate themselves as Type III receive higher than average release/retention settings. This corresponds to decreased releasability in a fall in order to gain a decreased risk of inadvertent binding release. <i>This Classification is not recommended for skiers 47lb (21kg) and under.</i>
---	---	---

If from experience, you have been dissatisfied with the release/retention settings that result from your skier classification, mention this to your binding technician.
