- You can return to this section of your agent/broker profile at any time to update this selection if you do intend to assist consumers with Marketplace coverage in the future.
  - **Note:** If you do not return to your profile to update your selection, **you will not be eligible** to participate in the Marketplace for Plan Year 2027 or to receive compensation for assisting consumers with Marketplace enrollments for Plan Year 2027.

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

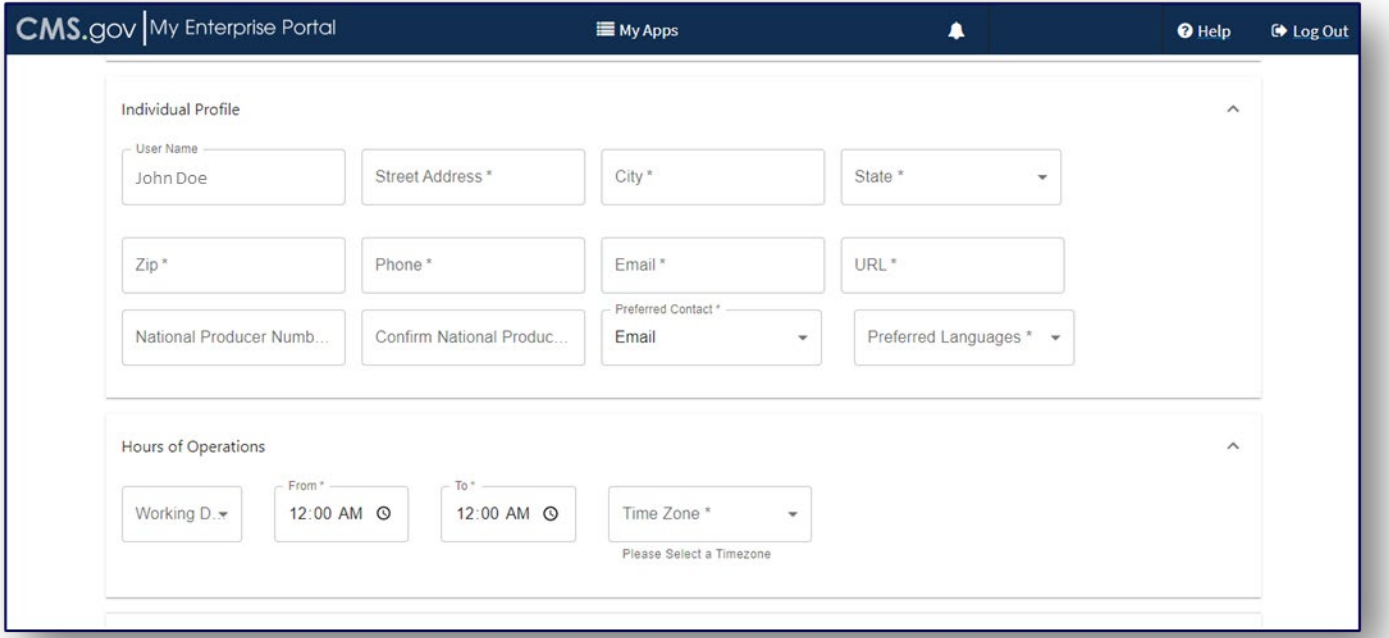

- The information agents and brokers use to complete their MLMS profile will be used to populate Find Local Help at HealthCare.gov and Help On Demand so consumers can find them for assistance. Find Local Help is also available in Spanish.

Note: Help On Demand is a referral system that quickly connects consumers seeking enrollment assistance on HealthCare.gov with Marketplace-registered, state-licensed agents and brokers in their area who can provide immediate assistance with plan selection and enrollment.

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

» The MLMS profile page will appear for an agent or broker to complete their role and business and/or professional contact information.

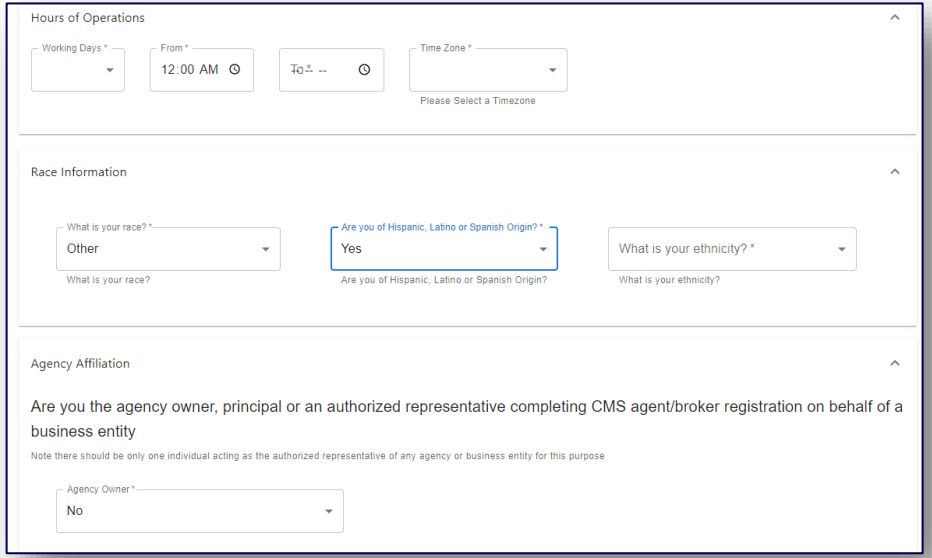

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

- An agent or broker must enter a correct NPN in their MLMS profile to receive credit for completing Marketplace registration.
  - The NPN can be up to 10 digits long and must not begin with a zero (0).
  - The NPN must not include any special characters or letters.
  - The NPN is not the same as a state license number. Be sure to use an NPN, not a state license number.
  - To update the NPN, an agent or broker can click the "Complete Agent and Broker Training" hyperlink and update the information in their MLMS profile.
  - Agent and broker NPNs can be found at https://nipr.com/help/look-up-your-npn.

Be sure to confirm the NPN is correct in the MLMS profile. Entering an inaccurate NPN could result in denial of compensation/credit by an issuer.

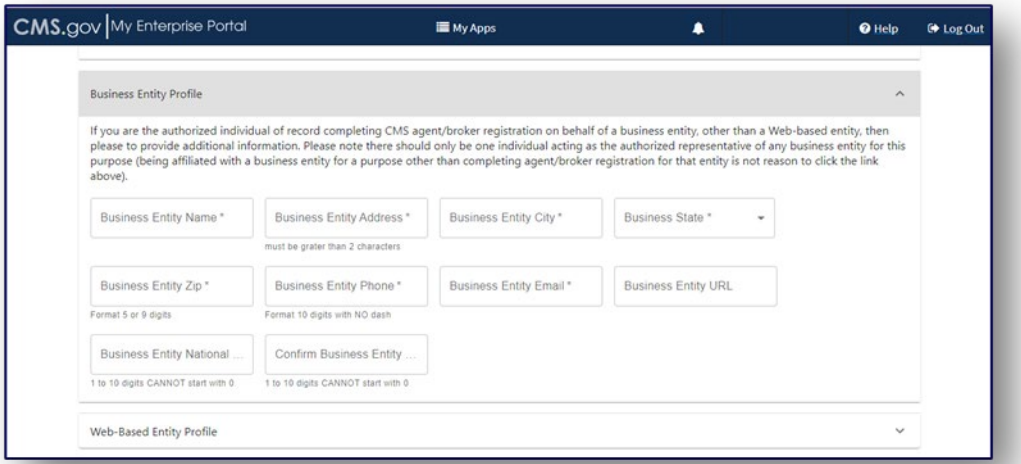

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

- Three race and ethnicity questions will appear, where an agent or broker will have the option to attest to personal race and ethnicity information.
- This information helps CMS identify the communities served by agents and brokers across the country.

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

- Agents and brokers who also act as the authorized representative* for a business entity or web-broker can add the business entity's or web-broker's National Producer Number (NPN) by clicking the appropriate "+" link at the bottom of the profile page.
- Agents and brokers can list up to three NPNs in their MLMS profile.

**An agency may only designate one user to act as the authorized representative for the business or web-broker entity for MLMS training completion.*

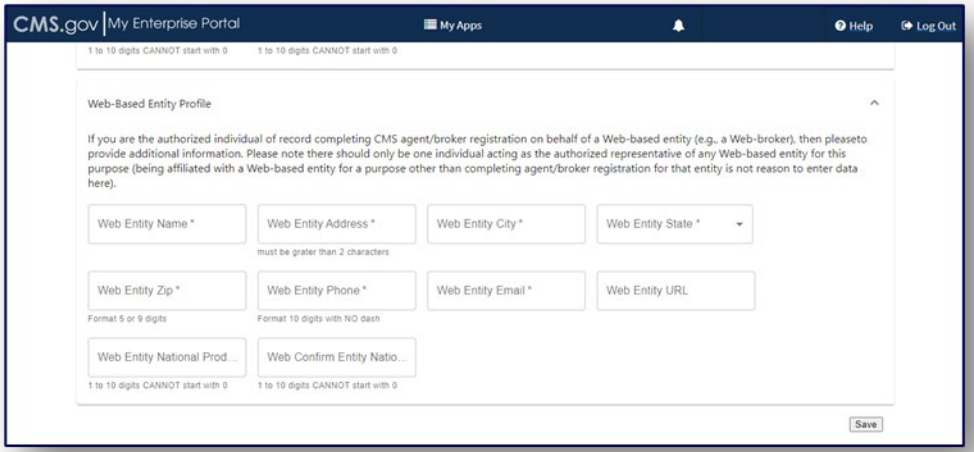

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

- When completing or updating the MLMS profile, agents and brokers should only enter a business or web-broker NPN if:
  - The NPN is tied to a **business entity** – such as an LLC, corporation, or partnership – that is registered with a state for the purpose of selling health insurance.
  - The agent or broker is the **authorized individual** or agent in charge associated with that entity's state license.

Note: Agents and brokers should not enter an individual NPN in the business or web-broker field of the MLMS profile. There should only be **one (1) individual** acting as the authorized representative of an agency or web-based entity. Being affiliated with a business or web-based entity (i.e., employed or contracted agent or broker) is not a reason to enter data here.

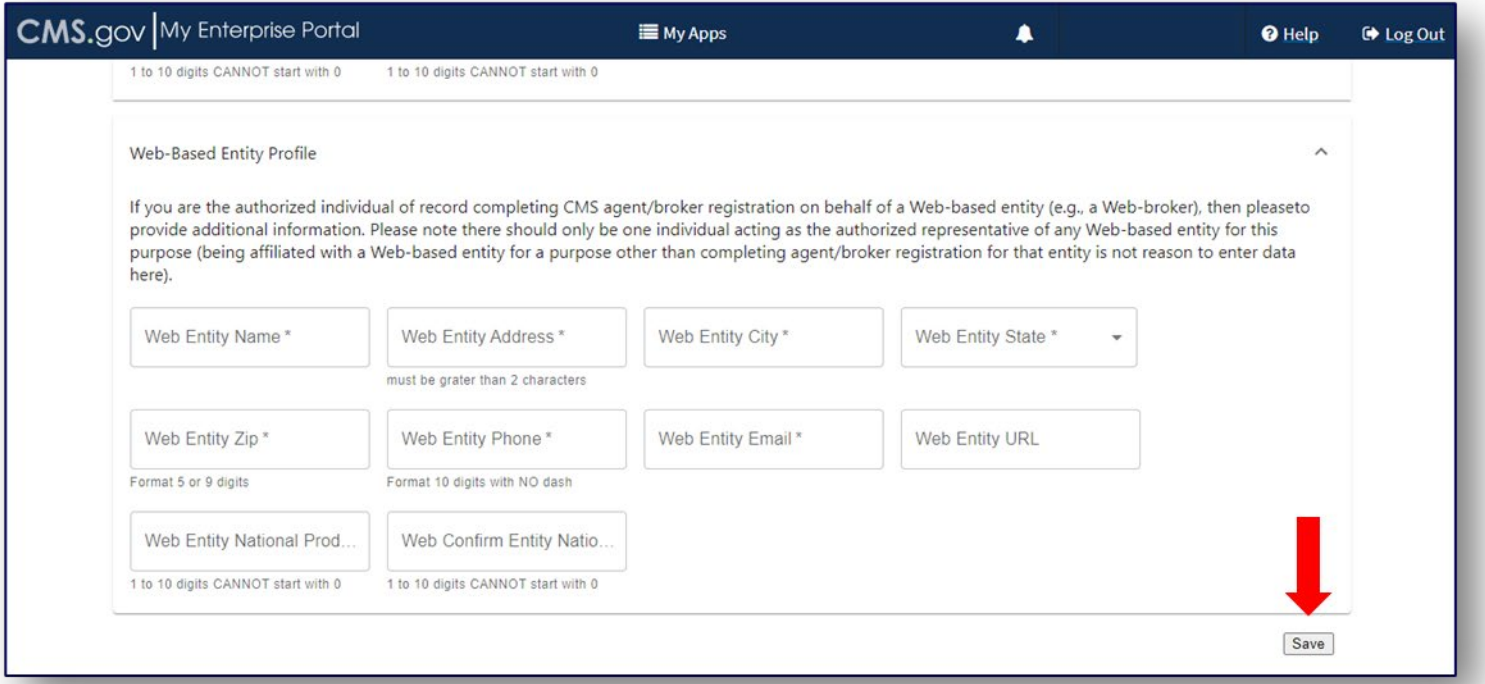

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

- Enter the information for affiliated web-brokers or business entities.
  - **Note:** Only those who sign a web-broker agreement should complete the web-broker profile.
  - **Any individual NPN entered in the business or web-broker NPN field of the MLMS profile screen will be removed.**
- If an agent or broker lists the business entity or web-broker NPN on their profile, these will be added to the public Registration Completion List once training has been completed.

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

» Once all profile information has been entered, click “Save.”

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

NPN and Licensure Validation

- CMS validates NPNs against data stored in the National Insurance Producer Registry (NIPR) Public Database: https://www.nipr.com/.
  - Results of this NIPR NPN validation appear on the public Agent and Broker Federally-facilitated Marketplace Registration Completion List (RCL): https://data.healthcare.gov/ffm_ab_registration_lists
  - The RCL is updated daily.
- NPN validation occurs during the annual registration process in the MLMS and is only applicable to the current plan year. If an agent or broker does not maintain a valid NPN, their agreements with the Marketplace will be terminated.
- To be validated, agents and brokers must:
  - Have a valid state license;
  - Have a valid health-related line of authority (LOA): https://nipr.com/licensing-center/add-a-line-of-authority in their resident state; and
  - Have an active status for their health-related LOA.

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

Line of Authority Validation Requirements for Marketplace Agents and Brokers:

» Background: Each state Department of Insurance (DOI) determines the requirements for agents and brokers in their specific state. CMS validates the status of an agent's or broker's licensure through the NIPR on a weekly basis. Specifically, licensure validation is determined by checking license status and the presence of a valid health LOA in the resident state for each agent or broker.

- **Note:** Some states, such as Florida, Hawaii, New Mexico, Texas, Utah, Vermont, Wisconsin, Nebraska, and Wyoming, require agents and brokers to have an appointment with a health insurance carrier before their NPN can be validated.

Note: Agents and brokers who do not have an approved health-related LOA, as determined by their resident state, will lose their access to Marketplace systems and **will not be able to assist consumers with Marketplace activities for Plan Year 2027.**

Step 4: Complete the Agent and Broker Profile in the MLMS via the CMS Enterprise Portal (continued)

- Agents and brokers can take several steps now to check and see if they need to take further action.
  - **Check resident state requirements** for Appointment Level LOA, Approved Class Type and/or Approved License Level LOA at https://data.healthcare.gov/AB-NIPR-Health-Line-Of-Authority.
  - Then, agents and brokers can go to NIPR at https://nipr.com/licensing-center/add-a-line-of-authority and use the "Look Up Your National Producer Number (NPN)" tool at the bottom of the page to **check their personal licensure information** for their resident state.
  - If agents and brokers do not have the required resident state LOA, they can use the links to "Add a Line of Authority" and **work directly with their resident state DOI** regarding licensing and appointment requirements.
- The validation of agents' and brokers' licenses will be reviewed weekly following completion of the required annual agent and broker Registration and Training. Agents and brokers should check the RCL at https://data.healthcare.gov/ab-registration-completion-list to confirm that their NPN is listed and the "NPN Valid (Current Year Only)" reflects "Y" for yes prior to assisting consumers with enrollment.

Step 5: Complete Marketplace Training in the MLMS

2. Link Your Login.gov or ID.me Credentials to Your Existing Enterprise Portal Account.

Step 5: Complete Marketplace Training on the MLMS (continued)

- The curriculum for the Marketplace Training for Returning Agents and Brokers consists of one (1) required training module and one (1) required exam.
- An agent or broker only needs to complete training one time for each plan year.
- Following the training, agents and brokers will be prompted to complete the Marketplace training exam.
- This exam consists of 10 questions that will test understanding of the concepts presented in the training.
- Agents and brokers must pass the exam with a **70% score or better** to receive credit for taking the course.

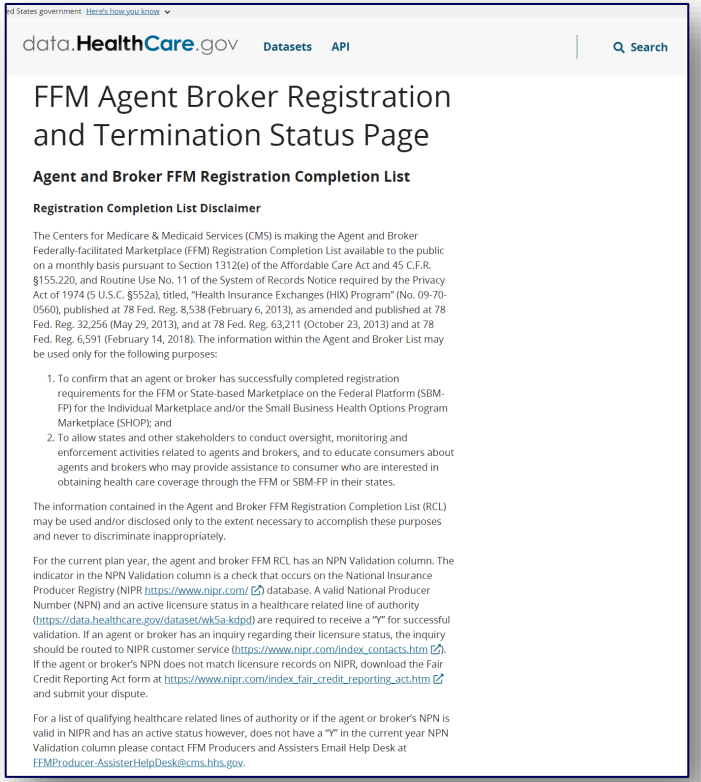

Step 5: Complete Marketplace Training on the MLMS (continued)

- The full training curriculum is available in the "Training Options" widget on the agent and broker welcome page.

Step 5: Complete Marketplace Training on the MLMS (continued)

- To ensure an agent or broker is eligible for Marketplace Training for Returning Agents and Brokers, they should confirm that their NPN appears on the Agent and Broker FFM Registration Completion List https://data.healthcare.gov/ffm_ab_registration_lists for Plan Year 2026.
- If an agent or broker believes they completed Plan Year 2026 registration and training, but do not find their name on the RCL, they can send an email to FFMProducer-AssisterHelpDesk@cms.hhs.gov for assistance.

For the current plan year, the agent and broker FFM RCL has an NPN Validation column. The indicator in the NPN Validation column is a check that occurs on the National Insurance Producer Registry (NIPR https://www.nipr.com/) database. A valid National Producer Number (NPN) and an active licensure status in a healthcare related line of authority (https://data.healthcare.gov/dataset/wk5a-kdpd) are required to receive a "Y" for successful validation. If the agent or broker's NPN does not match licensure records on NIPR, download the Fair Credit Reporting Act form at https://www.nipr.com/index_fair_credit_reporting_act.htm and submit your dispute.

For a list of qualifying healthcare related lines of authority or if the agent or broker's NPN is valid in NIPR and has an active status however, does not have a "Y" in the current year NPN Validation column please contact FFM Producers and Assisters Email Help Desk at FFMProducer-AssisterHelpDesk@cms.hhs.gov.
