We are pleased to provide access to some of the records you requested; a copy of the records are included. Acute Care Alberta ("ACA") wishes to advise that no additional records are available in response to this request as some of the AHS-era legacy records no longer exist. The current database used for tracking this data, The Chartered Surgical Facilities Information System "CSFIS"), was implemented in April 2023 (see our response to your request #2026-AG-122).

Subject matter experts from Data & Analytics and AHS, including the (former) Executive Director of the Kensington Clinic, reviewed the access request and confirmed that these AHS-era legacy records no longer exist.

If you have any questions or would like to discuss the processing of your request, please
