

# Mission Spotlight

CanCare

A survivor by your side.

**CanCare exists to provide hope to those of us facing a cancer diagnosis and our caregivers. CanCare offers 1-on-1 support through their active network of over 500 trained volunteers nationwide who are cancer survivors themselves. CanCare also provides in-hospital support and online group support sessions.**

**In 35 years, CanCare has trained over 2,400 volunteers, provided 1-on-1 support to over 50,000 individuals, and made over 230,000 hospital visits.**

**Pines has long supported CanCare and its mission. This month, as we spotlight CanCare, we are collecting newly purchased or handmade caps, scarves, shawls, and lap blankets in our "Wrapping Up Cancer" Agape offering. Look for more information about how you can give throughout the month.**
