

Mission Spotlight

Book donors make book owners!

About to complete its 14th year of operations, Books Between Kids has grown from a small organization that impacted a few hundred children to one that has distributed more than 3.2 million books throughout Greater Houston. Children receive books through Book Celebrations on the campuses of our partner schools and our Community Partners Program. Children often become first-time book owners because of Books Between Kids.

This month, Pines is proud to support BBK by collecting new or gently used Children's Books from Infant - 5th Grade. Donate children's books to the Agape box or purchase from the Amazon Wishlist through links posted around the church. Books Between Kids believes every child deserves to be a book owner!
