Association

Why Study and Work with IEA Accredited Professionals and Schools

The Accreditation Program is one of the most significant ways that the IEA promotes excellence, experience and integrity in the teaching and professional use of the Enneagram. IEA Accreditation is the premier indicator of depth and quality in training and experience of Enneagram professionals and programs across the various Enneagram lineages and traditions and in diverse applications worldwide.

IEA Accreditation serves as a mark of excellence. It lets clients, students and others in the international Enneagram community know that a certain standard of quality, level of experience in understanding, teaching and using the Enneagram professionally has been achieved.

All IEA Accredited Professionals, Training Programs and Enneagram Schools have agreed to abide by [IEA's Ethical Guidelines and Code of Ethics](#). Participation in the IEA's Accreditation program reinforces to the public that the IEA is a self-regulating community that maintains a high level of standards for teaching and professional use of the Enneagram system while supporting the proliferation of multiple perspectives and ways of using the Enneagram ethically and respectfully.

Benefits of Enneagram Training with IEA Accredited Professionals and Schools

- Assurance that you are learning from someone who has demonstrated depth and quality in Enneagram training and experience.
- Assurance that you are learning from someone who is committed to ethical standards in their professional work with the Enneagram.
- You receive points toward your own IEA Accreditation by attending programs taught by Accredited Professionals and bonus points for attending Accredited Training Programs and additional bonus points if/when you complete a full certification program offered by an Accredited Enneagram School.
- One-year free IEA Participating Level Membership upon completion of an IEA Accredited School's full certification program.
