

KASF recently hosted a dynamic Tech Career Spotlight Panel, bringing together professionals across the technology sector to share their career journeys, industry insights, and advice for students and young professionals. The event highlighted the breadth of opportunities within tech—ranging from software engineering and product management to data science, UX design, and emerging AI roles.

Our panel featured:

- Gina Jee Young Huh, *Cloud Data Consultant at Google*
- Rebecca Chung, *Technical Strategy Lead at IBM*
- Sam Moon Nam, *Project Risk Engineer at Samsung*

Watch the full recording here: <https://youtu.be/DEMrsNMCG2M>

Panelists shared their pathways into tech, lessons learned along the way, and strategies for building resilient, future-ready careers. Attendees also engaged in a lively Q&A session, asking about transitioning into tech without a traditional background, building strong portfolios, and leveraging networking and mentorship.

We extend a special thank-you to Juntae Rocker, *NERC Young Professionals Chair & Program Support Specialist*, and Charity Johnson, *Marketing Intern*, for their invaluable support in organizing and promoting this program. Their efforts helped make this event both seamless and impactful.

The session concluded with encouragement for students to stay curious, explore new pathways, and take full advantage of the supportive KASF community. Thank you to our panelists and attendees for making this event inspiring and meaningful.
