

**Looking for a way to organize files, documents, electronics, and other forms of classified materials within your GSA-Approved Class 6 Security Containers? We have heard your voices and the Alpha Safe Hard Drive Organizer (HDO) is your solution.**

**Made from 20 ga. cold-rolled steel and painted with the same durable powder coat paint finish found on our Security Containers, the HDO gives you the ability and versatility to protect your external hard drives and other sensitive electronic devices from static discharge with pull-n-pluck anti-static foam to provide a secure fit.**

**Designed to fit into a Legal-Size drawer as a filing folder, the HDO contains tabs on both sides of the unit to secure it to the built-in folder rails of the drawer. Up to 7 HDOs can fit per Legal-Size drawer. A built-in handle provides easy access and transportation to and from the Security Container, while an optional combination cam lock adds additional security while the HDO is outside of the Security Container.**

**For the entire month of June, we are running a special promotion of \$50 off any HDO. To take advantage of this limited-time offer, order yours now by**
