

# Kathy Levy

## President

**Kathy Levy has been the President of Alpha Safe since 2004. Her experience within the industry dates back to 1983 under the tutelage of her father, Bill Frederick. After Bill resigned from Hamilton Products Group, he and Kathy decided to start their own company. Using Bill's expertise and experience, along with the skills and knowledge that Kathy acquired after graduating with a double major in Business Marketing and Biology from VCU, the two set out to start their own security container company, Alpha Safe. Their mission was to build a better container – one that not only included the best features of each competitor's container, but also included additional features that were not offered at the time. They partnered with Skilcraft LLC. to manufacture their Security Containers and in 2006, the company was sold to Marielou Vierling, who is the present Owner and CEO of Alpha Safe.**

**Kathy takes great pride in the quality and craftsmanship of our Security Containers and expresses the critical importance our products have in regard to national security by stating, "our containers store material that are matters of national security. They are that important. That is why it is so important that our containers work right – every time and that exceptional quality is always something we strive for." When asked what she enjoys the most about her responsibility as President of Alpha Safe, Kathy mentioned, "the best part of my job is being able to fill an order for someone who needs a cabinet immediately so that they can deploy or get a new contract. When you can make a 300 pound container appear in a crisis situation and really help everyone stay safe, it's a great feeling."**

**Outside of work, Kathy enjoys a newfound passion for scuba diving with her husband. As she explains, "I have been with my husband for over 32 years. It has taken me 28 years to get him into the water and now we are both crazy about scuba diving together." Within the past three and a half years, they have logged over 222 dives together! When not in the water, she and her husband enjoy cycling together. In fact, cycling was what brought the two together when they first met at a race 32 years ago. Kathy is also a proud parent of two adult sons. All throughout high school, her sons and her would volunteer at cycling races, lead rides, and facilitate camping trips for Trails of Youth, a local bike club devoted to taking underprivileged kids out into the woods cycling, camping, and kayaking. Now that her two sons are young adults pursuing careers, she is happy spending time with them and doing just about anything. Kathy has always been an invaluable asset for Alpha Safe and it is our honor to recognize and share with you her accomplishments and continued efforts.**
