Dear Colleagues,

This year's Academy of Medical Educators' **Innovations Funding for Education (IFE) Call for Proposals will go out on August 4**. The Call for Proposals will include detailed information, including funding priorities and the cycle timeline.

To assist potential PIs in preparing their submissions, the IFE Committee will host an informational meeting on August 5 from 12:10 - 1pm via Zoom in lieu of ESCape. The first part of the meeting will be recorded and archived for future reference. No registration needed.

The IFE Program is one of the most impactful Academy programs designed to support junior or emerging faculty across UCSF to engage in curricular innovation and scholarship. In 2025, 22 proposals were awarded for a total of $406,850. See all awarded projects via the Open Proposals portal (MyAccess login is required).

If you are considering submitting a proposal for this funding cycle or would like to learn more about the program, please save the date for this important informational meeting. Funding is not limited to Academy members, so please share this opportunity with your UCSF colleagues.

We hope to see you there!

On behalf of the IFE Committee
Abigail Phillips, MD, IFE Committee Co-Chair
Andreea Seritan, MD, IFE Committee Co-Chair
Ann Poncelet, MD, Academy of Medical Educators Director
