From: Christopher Newton, MD
Med Staff Dept Surgery Chair

We are excited to welcome Lauren Evans, MD as the new Pediatric Surgery Fellow starting August 1, 2025. Dr. Evans is returning to UCSF as she served as a research fellow for Surgical Innovations in Dr. Harrison's lab from 2019-2021 and participated in the research program at our Level I Trauma Center at UCSF Benioff Children's Hospital Oakland.

Dr. Evans attended college at the University of California Santa Barbara receiving a BS in Biochemistry and Molecular Biology. She received her medical degree from Albany Medical College in 2016. Following medical school, Dr. Evans returned to Southern California to complete her general surgery residency at Cedars-Sinai Medical Center. She held a strong interest in clinical pediatric surgery throughout her general surgery residency with a dual academic interest in surgical innovations and outcomes research related to trauma and disparities in access to care. Between the end of residency and the start of pediatric surgery fellowship, Dr. Evans furthered her education by serving as a fellow in Pediatric Surgical Critical Care and Pediatric Colorectal Care at the Children's Hospital of Colorado in Denver.

Dr. Evans was raised in Portola Valley and has family in the Bay Area. In her spare time, she likes to cook and read. But mostly she enjoys spending time with her husband and two-year-old son.

Please join us in welcoming Lauren back to UCSF and BCH!
