

# Resource Recovery Consultant

Resource recovery / material circularity / organics

Part time or full time, located in any RMCG office

## ABOUT RMCG

RMCG provides consulting services on a range of business, environmental, agricultural and social issues. We are a dynamic team with versatile skills in the areas of integrated water management, organics, recycled water and biosolids use, environment management, economics, social research, strategic planning, agribusiness and community engagement.

## WHAT WE ARE LOOKING FOR

RMCG is seeking an experienced consultant to help lead our work in resource recovery, material circularity and organics diversion, processing and reuse. The successful candidate will have an excellent understanding of the waste and recycling industry, have great industry connections and be capable of winning work and leading projects in these areas. They will be able to leverage the skills RMCG already has in environmental management, engagement, economics, agriculture, organics, social research and evaluation to deliver meaningful projects.

The successful candidate will have tertiary qualifications in Environmental Management (or a related field), and at least 7 years of professional experience. They should be motivated to imbue circularity in our society and have the desire to help our clients improve their resource recovery and make positive changes in the management of materials.

The selected candidate will predominantly work on projects involving the sustainable use of resources including municipal solid waste, transfer station waste, business and industry specific waste, recyclable materials, organics and compost. RMCG has an excellent foundation in resource recovery projects, particularly in composting, organics use in agriculture and planning, and we seek a consultant who wants to expand our capabilities in these areas.

Experience in product stewardship schemes, anaerobic digestion, energy from waste, carbon accounting or emissions reduction would be beneficial, but not essential.

## QUALIFICATION REQUIREMENTS

A degree in Environmental Management or related field.

## SALARY PACKAGE

The remuneration package for the position will be negotiated with the preferred applicant but is expected to be in the range of \$100,000 to \$140,000 full time equivalent, including superannuation.

## KEY SELECTION CRITERIA

In your application, please describe your:

- Experience in the resource recovery and organics industry
- Specific areas of expertise and interest
- Aspirations for a circular economy and waste minimisation
- Knowledge of circular economy policies and drivers for change
- Communication skills and experience with face to face client work.

As with all of our staff, we are seeking candidates that:

- Show initiative
- Have problem-solving abilities
- Are able to manage their time
- Can work within a team
- Have an ability to build effective working relationships with clients.

## ADDITIONAL INFORMATION

- We place a strong emphasis on achieving a positive work/life balance and we can offer a flexible approach to work management.
- We offer exceptional conditions including staff lunches, paid parental leave, income protection insurance and staff profit share.
- The position will involve some travel and a current driver's licence is required.
- RMCG has offices in Victoria, Tasmania, ACT and NSW.

## APPLICATIONS

To be considered for this position, applicants **must**:

- Address all key selection criteria and set out clearly how your qualifications, professional skills and personal attributes can contribute to the success of the RMCG team and how working with us could foster your professional career.
- A CV (no more than 3 pages) listing qualifications, previous experience and the names and contact details for two referees.

Applications should be sent to Mandy McIntosh at: [mandym@rmcg.com.au](mailto:mandym@rmcg.com.au)

## CLOSING DATE

5pm, Monday 21<sup>st</sup> December 2020.
